June 4, 2019

Page 369 of Esarey and Chirillo (2013) states that “Our World Values Survey sample contains cross-sectional data from 1999-2002.” However, the data come from Waves 4 and 5 of the World Values Survey, corresponding to years 1999-2009. I discovered this error as a part of a related project using later World Values Survey data.
